

## **The leading conference for the coatings industry: European Coatings Show Conference selects OptiSense paper**

*The European Coatings Show 2021 has been moved from spring to fall due to Corona.*

*As the leading trade show for the international coatings and paint industry, it will be held this year from September 14-16 in Nuremberg.*

*The partially parallel European Coatings Conference will run from September 13-14, 2021.*

**The top-class jury of the European Coatings Show Conference (ECSC) has announced its program selection today: The OptiSense paper "Design of optical sensors for quality IIOT projects in coating applications" by Georg Nelke, Dipl.-Physiker and OptiSense Managing Director, has been selected into the challenging program.**

And as of today, it is official: Georg Nelke's paper entitled "Design of optical sensors for quality IIOT projects in coating applications" has been selected for the program of Europe's leading conference in the coatings industry.

In just two and a half days, the European Coatings Show Conference offers everything participants need to succeed in the highly competitive coatings market: the latest developments, the latest results from scientific institutes and universities, and personal contact with leading international experts.

The ECSC relies on a modern, future-proof hybrid event concept. Interested parties can attend the conference live in Nuremberg or follow the lectures via live stream.

The lecture by Georg Nelke will showcase the latest developments in coating thickness measurement and will be presented for the first time on Monday, September 13, 2021 from 11:00 - 11:30 am.
